Sir:

This paper is responsive to the Examiner's December 8, 2009 Office Action.

The Examiner found that the claims of the instant application, which are directed to optoelectronics sensors, describe patentably distinct species. The Examiner therefore required that the application be restricted to one of the following species under 35 U.S.C. 121:

- I. Embodiment of 1 of Figures 1-2;
- II. Embodiment of 2 of Figure 4; and
- III. Embodiment of 3 of Figure 5.

Applicants respectfully select Group I, FIGS. 1 and 2, for prosecution on the merits.

The claims readable upon selected Group I are claims 1-7 and 13.

Respectfully submitted,

Date: January 7, 2010
